MC9090-G RFID
Handheld RFID Readers for Global Deployments

Empower mobile workers with real-time comprehensive advanced data capture capabilities in a rugged handheld computer. Streamline your business operations, reduce errors, and increase your productivity and profitability with the power of the MC9090-G RFID Handhelds from Motorola. The device provides mobile workers throughout the supply chain with complete data capture functionality and real-time connectivity to critical business applications. Workers can read RFID tags, and capture 1D and 2D bar codes as well as images, ensuring seamless integration throughout the enterprise — even when multiple types of product identification and tracking systems are deployed. Handheld, on-the-spot RFID capabilities remove the dependency on fixed readers installed at typical choke points, enabling efficient exception handling, pricing audits and changes, stock picking and more.

Support for U.S. frequencies, APAC frequencies and the European standard ETSI EN 302 208, this versatile product line can easily support global deployments. The superior construction is designed to withstand rigorous use in extreme environments and a wide variety of working conditions, providing the flexibility to be used on the manufacturing floor, in the warehouse, on the loading dock, and out in the yard as well as in the back room or out on the sales floor of a retail operation. An anywhere, anytime wireless connection provides the real-time information needed to streamline business processes, increase productivity and enable more strategic decision-making.

Support for wireless printing, wireless headsets and more via wireless PAN simplifies everyday use for end-users. The ergonomic pistol-grip design provides comfort in scan intensive applications, such as shelf price audits and inventory management.

The power to meet your enterprise application requirements
Equipped with the latest advances in mobile technology, the MC9090-G RFID handheld provides support for the richest enterprise applications. Whether your application is simple or complex, the MC9090-G RFID reader delivers performance you can count on — from the latest Intel processor designed for the specific demands of mobility, to robust persistent storage capabilities and multiple advanced data capture options. Windows Mobile 5.0 provides your workers with a familiar feature rich environment — and reduces training requirements.

With support for 1D and 2D bar code scanning, RFID and imaging, the MC9090-G RFID handheld delivers superior application flexibility and cost-efficiencies.

FEATURES
Multiple configurations available that support standards around the world
Flexibility to support global deployment needs
Supports EPC Gen 2 (DRM)
Allows easy integration of RFID as part of your supply chain processes
Exceptionally rugged construction: passes industry's most stringent drop and tumble tests; IP64 sealing rating; integrated internal antennas
Flexibility to use in nearly any environment; dramatically reduces repair and downtime costs; delivers enterprise performance and ROI
Supports 1D and 2D bar code scanning, RFID and imaging
Multi-modal single device provides superior application flexibility and cost-efficiencies

MC9090-G RFID Handheld RFID Readers for Global Deployments
Rugged construction and maximum manageability deliver a low TCO

The MC9090-G delivers outstanding investment protection and a low total cost of ownership through superior design, construction, manageability and support services. Adding Motorola Mobility Services Platform (MSP) enables you to quickly and easily provision, track and support all your MC9090-G RFID devices from a central location, delivering an unprecedented level of simplicity and low cost to management of mobile devices. And to help protect your investment, Motorola offers Service from the Start with Comprehensive Coverage.

For more information on the MC9090-G RFID handheld and its full line of accessories, visit our global contact directory at www.motorola.com/enterprise/contactus, or visit us on the Web at www.motorola.com/mc9090g-rfid

Integrated 802.11 a/b/g
Enables real-time data communications; technology differentiating features deliver superior wireless connectivity

Common Motorola platform
Maximizes software development investment

Intel XScale PXA270 processor: 624 MHz; enhanced memory architecture for persistent storage
Supports simple to complex multimedia applications; ensures retention of mission-critical data

Windows Mobile 5.0
Advanced mobile operating system for robust application support (Windows or applicationspecific)

MC9090-G RFID Specifications

Physical and Environmental Characteristics

**Dimensions:** 10.75 in. L x 4.7 in. W x 7.7 in. H
273 cm L x 11.9 cm W x 19.5 cm H

**Weight:** 35.4 oz./1 kg (includes battery, scanner and radio)

**Keyboard:** 53-key; Terminal Emulation (5250, 3270, VT)

**Display:** QVGA color

**Power:** Removable, rechargeable 7.2 volt Lithium Ion 2200 mAh battery pack, 15.8 watt hours

**Performance Characteristics**

**CPU:** Intel® XScale™ Bulverde PXA270 processor at 624 MHz

**Operating System:** Microsoft Windows Mobile 5.0 Premium Edition

**Memory (RAM/ROM):** 64 MB/128 MB

**Expansion:** SD/MMC card

**Application Development:** PSDK, DCP and SMDK available through Motorola Developer Zone Web site

**Bar Code Options:** Omni-directional 1D and 2D imaging engine reads symbologies and captures grayscale images and signatures with intuitive laser aiming.

**User Environment**

**Operating Temp.:** -4° F to 122° F/20° C to 50° C

**Charging Temp.:** 32° F to 104° F/0° C to 40° C

**Storage Temp.:** -40° F to 158° F/-40° C to 70° C

**Humidity:** 5% to 95% non-condensing

**Drop Spec:** Multiple drops to concrete: 6 ft./1.8 m across the operating temperature range

**Tumble:** 2,000 one-meter tumbles at room temperature (4,000 hits)

**Environmental Sealing:** IP64 (electronic enclosure, display and keypad)

**Electrostatic Discharge (ESD):** +/-15kVdc air discharge; +/-8kVdc direct discharge; +/-8kVdc indirect discharge

**RFID**

**Standards supported:** EPC Gen 2 DRM (DRM compliant up to 0.5w)

**Nominal read range*:** 0.2 ft. to 10 ft./6.09 cm to 304.8 cm

**Nominal write range*:** 1 ft. to 2 ft./30.5 cm to 60.9 cm

**Field:** 70-degree core (approx.) measured from nose of device

**Antenna:** Integrated, linearly polarized

**Frequency Range:** US: 902-928 MHz
Europe: 865.7-875 MHz (ETSI EN 302 208)

**Output Power:** US: 1W (2W EIRP)
Europe: 0.5w

Wireless Data Communications

**WLAN:** 802.11 a/b/g

**Output Power:** 100 mW U.S. and international

**Data Rate:** 802.11a: up to 54 Mbps; 802.11b: up to 11 Mbps; 802.11g: up to 54 Mbps

**Antenna:** Internal

**Frequency Range:** All country dependent: 802.11a - 5 GHz; 802.11b – 2.4 GHz; 802.11g – 2.4 GHz

**PAN (Bluetooth Support):** Bluetooth Version 1.2 with BTExplorer (manager) included

Peripherals and Accessories

**Cradles:** Single-slot serial/USB, 4-slot Ethernet, 4-slot charge only

**Printers:** Supports extensive line of Motorola-approved printers and cables

**Charger:** 4-Slot universal battery charger

**Other Accessories:** Cable adapter module; snap-on magnetic stripe reader; modern module; full set of cables

Regulatory

**General:** Approved for use in the United States, Canada, Europe, South Korea and additional APAC countries**

**Electrical Safety:** Certified to UL60950-1, CSA C22.2 No. 60950-1, IEC 60950-1

**EMI/RFI Radio Versions:** US: FCC Part 2 (SAR), FCC Part 15, RSS210
Europe: EN 301 893, EN 300 328 EN 60950-1

**Laser Safety:** IEC Class2/FA Class II in accordance with IEC60825-1/EN60825-1, 21CFR1040.10

Warranty

The MC9090-G RFID is warranted against defects in workmanship and materials for a period of one year (12 months) from date of shipment, provided the product remains unmodified and is operated under normal and proper conditions.

Recommended Services

Customer Services: Service from the Start – Bronze with Comprehensive Coverage

Approved for use in the United States, Canada, Europe, South Korea and additional APAC countries**

NOTICE: Repairs of this product may require the use of Motorola proprietary parts (and/or Motorola proprietary information). Motorola will sell these parts (and provide this proprietary information) only to end-user customers for self-service. In the U.S. For all other countries, please contact your Motorola account manager or the local Motorola Customer Service representative in your area for further details.

WPAN: Bluetooth v1.2 radio with BT Explorer (Manager included)

Wirelessly synchronize, print, and connect to a headset

Large QVGA display: exceptional clarity and contrast

Easy to read in a variety of lighting conditions

Forward scanning, pistol grip ergonomics

Reduces user fatigue in bar code scanning and RFID tag reading intensive applications

Integrated directional antenna (70 degree forward-looking)

Enables isolation of desired tags

API (Application Programming Interface) for Microsoft® Windows® CE.NET 4.2 and Windows Mobile 5.0

Familiar tools simplify and reduce the time required to develop RFID-enabled applications

Design for Windows Mobile®

Familiar tools simplify and reduce the time required to develop RFID-enabled applications
