This end-cap RFID reader can operate in rugged conditions at both short ranges or at ultra long ranges and provides unrivalled mobility solutions.

This active RFID end-cap reader for Psion Teklogix Workabout Pro G2 is a powerful, robust and cost-effective mobile tool for active RFID asset management. It has the advantages of quick and easy installation, plug and play capability, allowing for simultaneous use of multiple other expansion modules, user’s choice of out-the-box or customized applications to process detected tag data. The end-cap reader can operate in rugged conditions at both short ranges or at ultra long ranges and provides unrivalled mobility solutions for customers seeking to identify, locate or audit tagged assets outside of areas monitored by fixed RFID reader networks.
