This highly reliable reader can be easily carried by users for applications such as security tour, logistic, ticketing, etc.

This handheld RFID reader is easily connected to a computer via a USB port for data transmission and information management. It uses an LED to indicate that it has identified RFID tags in its vicinity. This light weight reader's large memory holds up to 30716 records and the device has a read range of up to 6cm. It has an IP67 protection rating and is resistant to shock and water.

Applications

- ✓ Guard tour monitoring systems
- ✓ Remote equipment inspection management

- ✓ Goods delivery
- ✓ Transportation management

Technical Specifications

Memory	30716 records
Display	LED indication
Power	3V lithium battery with 2 years of service time
Communication Interface	Wireless inductive
Operating Temperature	14 V DC, max. 1000mA
Storage Temperature	-40° C -- 70° C
IP Rating	67
Scan Distance	0-6cm
Reading standards	EM 64 bits
Weight	120g
Operating Humidity	0% - 95%
Dimensions	120(L) x 35(W) x 20(H)mm
