

***This document tracking RFID reader/writer tray provides for easy registration, recording and tracking of all tagged office documents.***

This high frequency document tracking RFID reader/writer tray has the ability to both read and write from and to tagged documents so that they can be registered, recorded and tracked by a document tracking system. The tray, working with a stand-alone reader, operates reliably with up to 60 documents regardless of the tag positions – be they stacked, overlapping or even touching. The tray can also be stacked using an optional rack to provide convenient “In and Out Trays” for tracking.

The tray easily complies with ISO/IEC 18000-3 Mode 2 and connects to a PC via Ethernet or USB. It has a fast, two channel read speed of up to 150tags/s. This RFID document tracking tray also offers easy maintenance as there are no user serviceable parts and no calibration is necessary.

### **Key Features**

- ✓ Fast, reliable reading and writing: 2 channels at 150 tags/s
- ✓ Reads and writes up to 60 stacked documents regardless of tag position
- ✓ Easy USB or Ethernet connectivity
- ✓ No manual calibration required
- ✓ Can be stacked using optional rack
- ✓ Certified for both North America and Europe
- ✓ Optional rack to provide for convenient “In and Out Trays” for tracking

## Technical Specifications

Frequency	13.56MHz
Operation Range	Shrouded areas
Operation Environment	Indoor use only
Power Supply	12V DC, 1A
Standards Compliance	ISO/IEC 18000-3 Mode 2
Certifications	FCC, CE, Canadian and Australian Standards
Command Data Rate	424kbits/s
Reply Data Rate	106kbits/s
Reply Channels	2
Number of Axis	2
Operation Temperature	10°C to 45°C
Humidity	10% to 80% non-condensing
Dimensions (L x W x H )	380mm x 280mm x 90mm
