

The double-sided RFID portal is an ideal solution for apartments and condos, gated communities, business parking lots and garages, university parking areas and recreation centers from hotels to RV camps.

This double-sided RFID portal includes an Enterprise reader (216004) and four circular antennae (326008). Sleek in appearance, the RFID portal is finished with a firm and durable steel chassis housing RFID electrics and optional accessories, a high impact industrial plastic cover, a resistant 3/16in steel kick-plate and a secure steel base-plate constitute. It is an ideal solution for apartments and condos, gated communities, business parking lots and garages, university parking areas and recreation centers from hotels to RV camps. The portal features fast and simple installation, convenient access to AC power, LAN and accessory connections through an easily removable plate on the top of the body. The pallet height is selectable: 80in for single height and 96in for double height. Optional components include light stack and electric eye presence detector.

Technical Specifications

Supported Readers	Enterprise Reader (216004)
Operation Temperature	-20°C to 50°C
Storage Temperature	-40°C to 70°C
RF Output	902MHz to 928MHz, 4Watt EIRP
LAN	Ethernet, Internet Protocol, optional 802.11b/g
Construction	119mil steel chassis; 187mil steel kick-plate, 250mil ABS covers
Dust and Moisture	IP53
Power	110 to 125 AC, 2A, 60Hz
Safety	UL69050, CSA 22.2/60950; TUV NRTL certified
Emissions	FCC 47 CFR Part 15, Canada RS210 (ALR-9800)
Dimensions(ALR-9814)	Chassis: 5.5" × 15" × 77"; base-plate: 6.5" × 22"
Recommended Pallet Height	Single height: 80 inches; double height: 96 inches
