

The GOCart™ has an integrated rechargeable power plant providing AC power for the most demanding processing environments.

The GOCart™ is an industrial strength commercial grade mobile platform. It has an integrated rechargeable power plant providing AC power for the most demanding processing environments. Its robust design is constructed from “Impact Polyethylene” used in construction pylons with a cast iron base and stainless steel covers. It has four step lockable dual wheels for superior handling and stability.

The GOCart™ is a perfect solution for applications where a mobile computing platform is needed. GAO’s fixed readers fit easily into the GOCart™ which are then easily connected to either a laptop or other mobile computing devices. Antenna can be mounted to both the front and sides. It has an adjustable height and provides up to 4 drawer sections.

Specifications

Weight	70kg
Height	Min. 83cm, max. 120cm
Depth	76cm
Width	56cm
Battery	2@8amp
Charger	3 stage UL charging system
Charge time	5h max.
