

This RFID access control device with multiple identification methods is perfect for building access management applications and time and attendance applications.

This high performance access control device identifies users via fingerprint, RFID card, and password or camera identification methods. It is perfect for building access management applications and time and attendance applications.

This RFID access control device features multiple identification methods, high accuracy and reliability and fast identification speed. It allows for 360 degree rotation identification and can identify dry, damaged and incomplete fingerprints. This fingerprint access control device is equipped with a 4.3 inch LCD color touch screen with smart navigation menus.

Key Features

- ✓ High accuracy and fast speed identification
- ✓ Access management functions
- ✓ Offers multi-language attendance & access management software
- ✓ Allows 360 degree rotation
- ✓ 3.5 inch color LCD display

Technical Specifications

Effective collection area	16 mm × 19 mm
Fingerprint Templates	9500
User Capacity	4750
Transaction Storage	80,000
Management Records	1000
Employee Number	1 to 999999
Fingerprint Sensor	Suprema
Authenticate Ways	Fingerprint, password, EM/Mifare Card
Screen	3.5 inch color screen display, resolution: 320*240
With camera	Yes
Display Employee photo	Yes
