This ultra high frequency miniature tag offers high performance in both on metal and off metal applications.

This miniature UHF on-metal tag provides unparalleled performance for asset management especially for high value IT assets such as computers.The Gen 2 RFID mount-on-metal tag offers about 8 feet /2.5 meters when used on metal surface and about 1.5 meter when used off metal.

Key Features

✓ Small size and light weight

✓ Contactless read and write

✓ High accuracy

✓ RoHS compliant

✓ Offers a read range of 2.5 meters when used on metal surface and 1.5 meter when used off metal

Technical Specifications

Dimensions	13 x 38 x 3 mm/0.5 x 1.5 x 0.12 in
weight	2 g
Frequency	865 to 869 MHz, 902 to 928 MHz 952 to 955 MHz
Read range	2.5 m; 8 ft (on-metal) 1 to 1.5m; 3 to 5ft (off-metal)
IC and memory size	Impinj Monza 96-bit EPC
IP classification	IP54
Ambient temperature	-20 °C to 85 °C -4 °F to 185 °F
Attachment methods	Adhesive, delivered as default
Special features	The smallest UHF tag, on-metal tag for indoor applications

Product is RoHS compliant
