

RFID PERSONNEL TRACKING SOFTWARE AT-A-GLANCE

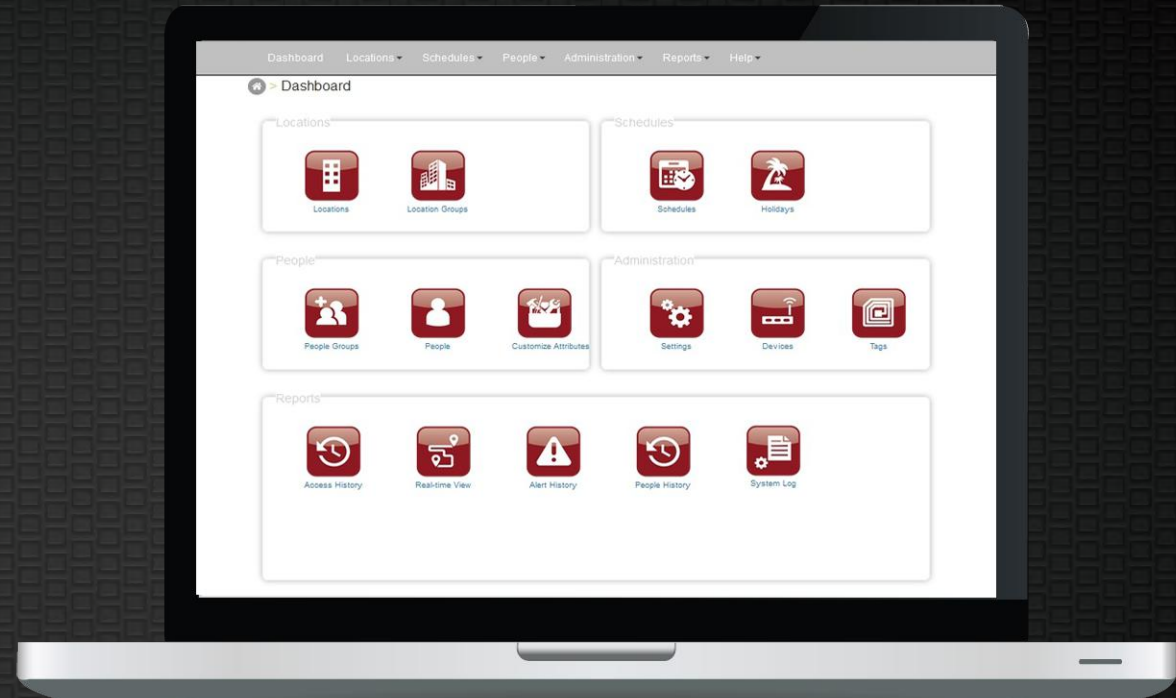

Celebrating Over 20 Years of Innovation

Are you ready for 360° **VISIBILITY?**

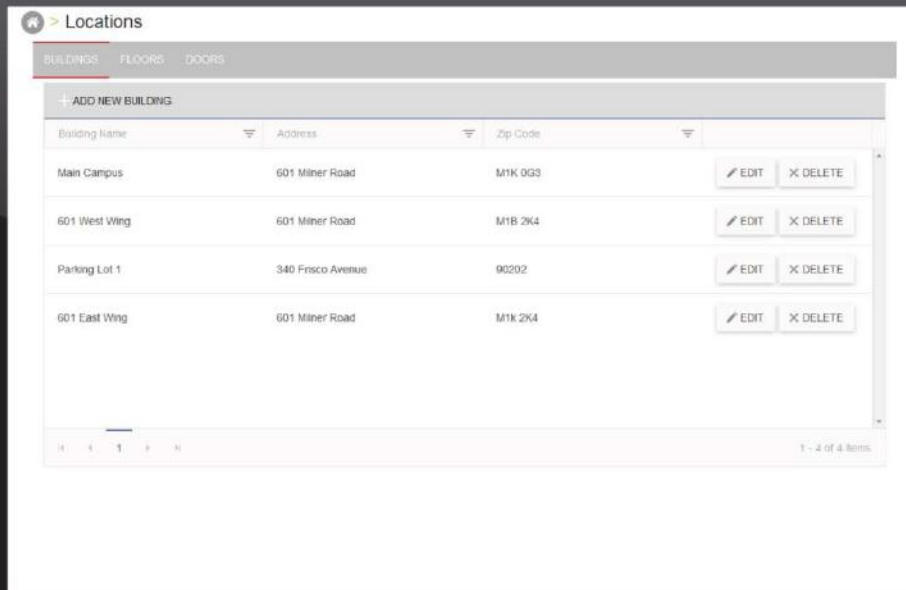

The GAO RFID Personnel Tracking System is an integrated tracking solution that can monitor personnel in real-time, enabling you to improve workplace safety, increase productivity, while tracking time and attendance.

Once you login to our software, you are greeted with a user-friendly dashboard designed to give you a 360° **visibility of your employees** throughout the work day.

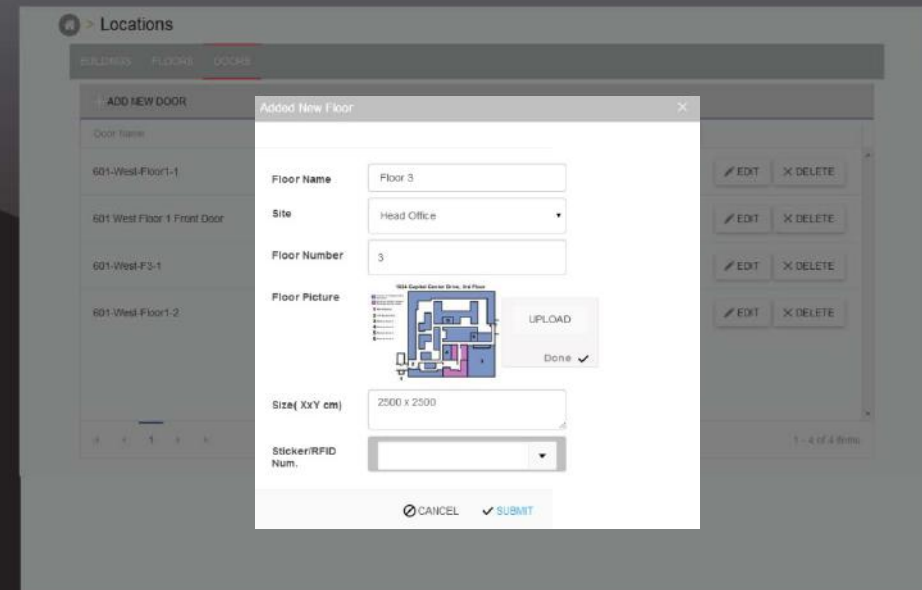

Setup your business **LOCATIONS**

Easily define the locations at your site where you want to track your personnel. By uploading floor plans and then specifying the buildings, floors, and doors, you can quickly create the zones where you want to monitor personnel movement.

| Building Name | Address | Zip Code | |
|---------------|-------------------|----------|---|
| Main Campus | 601 Miner Road | M1K 0G3 | EDIT X DELETE |
| 601 West Wing | 601 Miner Road | M1B 2K4 | EDIT X DELETE |
| Parking Lot 1 | 340 Frisco Avenue | 00202 | EDIT X DELETE |
| 601 East Wing | 601 Miner Road | M1K 2K4 | EDIT X DELETE |

1 Define which buildings to monitor

| Door Name | |
|-----------------------------|---|
| 601-West-Floor1-1 | EDIT X DELETE |
| 601 West Floor 1 Front Door | EDIT X DELETE |
| 601-West-FS-1 | EDIT X DELETE |
| 601-West-Floor1-2 | EDIT X DELETE |

Added New Floor

2 Drill down to floor and door to create tracking zones

Install and configure **READERS**

An intuitive user interface enables to you to quickly add RFID readers to the system and assign them to the locations where they have been installed.

The diagram illustrates the process of adding and configuring RFID readers in two steps:

Step 1: Add New Fixed Reader

This form allows users to configure a new fixed reader. It includes the following fields and options:

- Basic** (selected), **Advanced**, **Specified**
- Name**: Text input field
- Model**: Dropdown menu
- Address**: Text input field
- FQDN**: Dropdown menu (showing `AJCENTRAL202.GAO.COM`)
- Locations**: Text input field
- CANCEL** and **SUBMIT** buttons

Step 2: Devices

This page displays a list of installed fixed readers. The table below shows the data:

| Name | Model | Address | FQDN | Actions |
|-----------------|-------------|-----------------|----------------------|---|
| Office Entrance | GAOSpeedway | 100.100.100.540 | AJCENTRAL202.GAO.COM | EDIT X DELETE |
| BC RD | GAO217001 | 192.156.100.100 | AJCENTRAL202.GAO.COM | EDIT X DELETE |
| Ottawa RD | GAO217001 | 100.100.100.101 | AJCENTRAL202.GAO.COM | EDIT X DELETE |

1 Install and configure RFID readers

2 Designate RFID readers to each door or zone to enable tracking

Assign access tags to **PERSONNEL**

Easily begin tracking your personnel and visitors by assigning them dedicated RFID identification tags. Organize them into user groups to control which areas they can enter/exit to further refine tracking and monitoring abilities and keep your workplace safe.
